CRISPO

Aluminum Skirting Board

Crispo aluminum skirting board is mostly preferred in areas with large gaps between wall and flooring due to its wide form. It covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years. With the hollow area in its design, it collects the telephone, electricity and internet cables to organize your environment. Crispo provides unity with its oval transition appearance and is compatible with both classical and modern architecture.

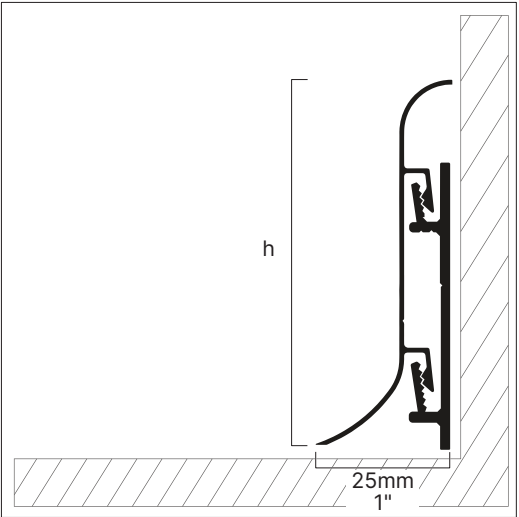

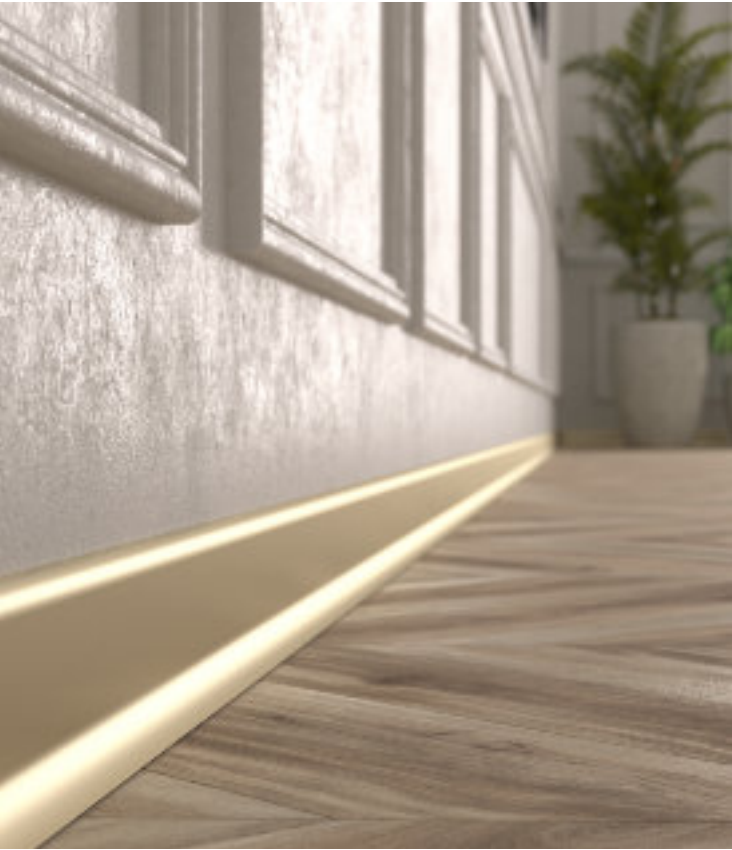

Crispo has matte anodized, bright anodized, satin chemical bright anodized and electrostatic powder painting options.

While silver, yellow, inox, bronze and black anodized color coatings are available, it can also be painted to the desired RAL code with electrostatic powder painting.
