SVE U JEDNOM

Aluminijski prijelaz rampe

Sve u jednom aluminijskom prijelaznom profilu rampe omogućuje prijelaz eliminirajući bilo kakvu razliku u razini između dva različita materijala za podove u podnim aplikacijama.

Svojom podesivom značajkom prilagođava se svakoj razlici u razini podova.

Za razliku od svojih konkurenata, može se postaviti iz svog produžetka ispod poda i ne zahtijeva ljepila što ga čini dugotrajnijim.

Sve u jednom ima opcije mat eloksiranog, svijetlo eloksiranog, satin kemijski svijetlo eloksiranog i elektrostatskog praškastog bojanja.

Iako su dostupni srebrni, žuti, inox, brončani i crni anodizirani premazi u boji, također se može bojati u željenu RAL šifru elektrostatskim bojanjem u prahu.

It covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years. Sentio has matte anodized, bright anodized, satin chemical bright anodized and electrostatic powder painting options. While silver, yellow, inox, bronze and black anodized color coatings are available, it can also be painted to the desired RAL code with electrostatic powder painting.
