

## WISHLED

suitable for any environment with unlimited design options

Wished aluminium LED skirting board can match with any environment due to its unlimited pattern designs options. It is mostly preferred as night lighting in children's rooms with its replaceable design printed cover. It can also be used for advertising and to present corporate identity in public areas. In addition to its illumination feature, it also covers the defects in floor and wall joints. Application will be completed by mounting the front design printed diffuser panel with its snap lock system. With the inner, outer and end covering caps, which are the same color as the profiles, smooth corner turns can be easily applied without the need for an angled cut.

Wished has matte anodized, bright anodized, satin chemical bright anodized and electrostatic powder painting options. While silver, yellow, inox, bronze and black anodized color coatings are available, it can also be painted to the desired RAL code with electrostatic powder painting. In addition to existing pattern designs we offer for the illuminator panel, personalized designs can also be applied.
