LEUX

Aluminum LED Skirting Board

Leux aluminum LED skirting board is mostly preferred in exclusive classical design projects through its decorative lighting feature and Victorian design. It can also be used as a guiding light in dark places. In addition to its illumination feature, it also covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years. With the hollow area in its design, it collects the telephone, electricity and internet cables to organize your environment. Leux brings classical appearance and modern lighting together. Leux is an eclipse series product. Aluminum products with eclipse marker have RAL7016 and RAL9016 color options.
