CRISPO

Aluminijasta talna letev

Aluminijasta letev Crispo je zaradi svoje široke oblike najbolj priljubljena v prostorih z velikimi razmiki med steno in tlemi.

Pokriva napake v stikih tal in sten.

Preprečuje nabiranje umazanije in škodljivih organizmov ter zagotavlja higienično in zdravo uporabo več let.

Z votlo površino v svoji zasnovi zbira telefonske, električne in internetne kable za organizacijo vašega okolja.

Crispo zagotavlja enotnost s svojim ovalnim prehodnim videzom in je združljiv tako s klasično kot sodobno arhitekturo.

Crispo ima možnosti mat eloksiranega, svetlo eloksiranega, satenasto kemično svetlo eloksiranega in elektrostatičnega prašnega barvanja.

Medtem ko so na voljo srebrni, rumeni, inox, bronasti in črni anodizirani barvni premazi, ga je mogoče tudi pobarvati na zeleno oznako RAL z elektrostatičnim prašnim barvanjem.

CRISPO

Aluminum Skirting Board

Crispo aluminum skirting board is mostly preferred in areas with large gaps between wall and flooring due to its wide form. It covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years. With the hollow area in its design, it collects the telephone, electricity and internet cables to organize your environment. Crispo provides unity with its oval transition appearance and is compatible with both classical and modern architecture.

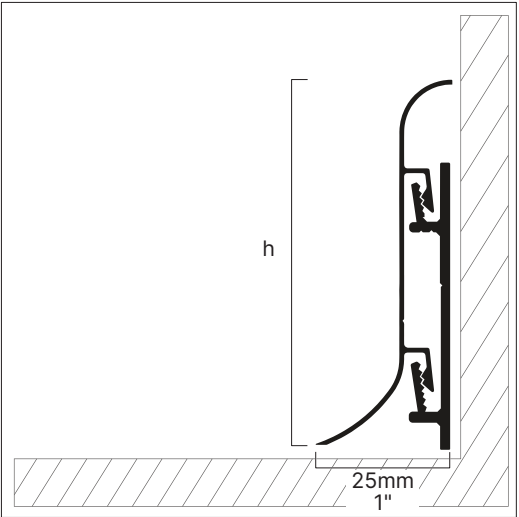

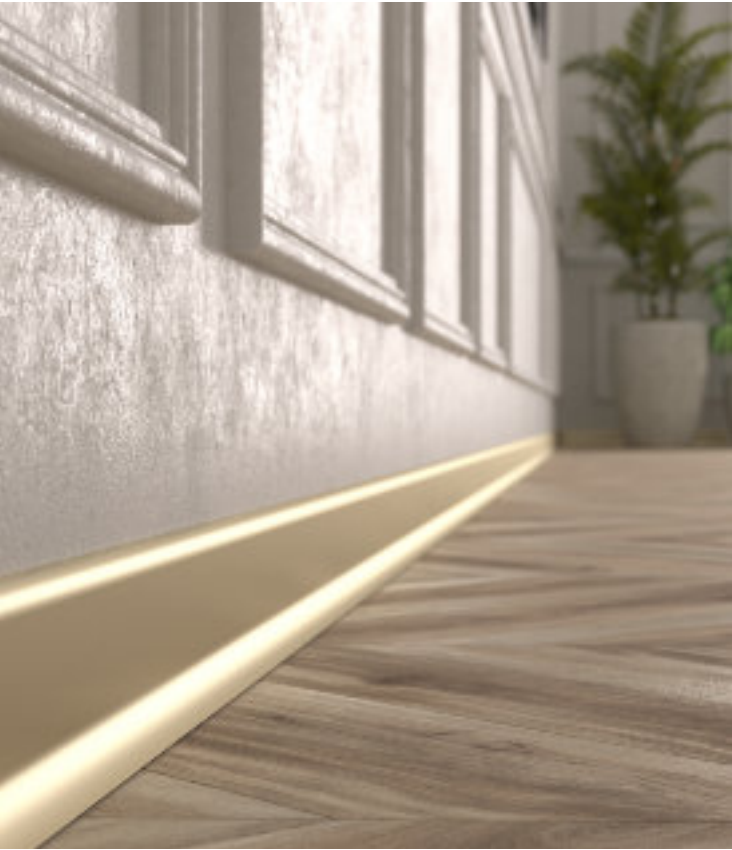

Crispo has matte anodized, bright anodized, satin chemical bright anodized and electrostatic powder painting options.

While silver, yellow, inox, bronze and black anodized color coatings are available, it can also be painted to the desired RAL code with electrostatic powder painting.
